

K-LOVE provides a valuable service to my community by presenting a positive, constructive alternative to pop music. Losing K-LOVE in my area would impact the lives of hundreds of teens who listen to K-LOVE for encouragement and a break from the violence found in pop music.

K-LOVE definitely provides a service that is in the public's best interest. Their music promotes kindness, hope and love. For me K-LOVE is a place on my radio where I go for refreshment and I know it is for many other people as well. Thank you .
